Come Out and Hear the Great Commoner!

MRS. MILDRED BOARD, WIFE OF JUBAL BOARD,

Dies In Two Weeks After Returning To Old Home--Leaves Six Children.

EIGHTY-FIVE YEARS OLD

Mrs. Mildred Board, wife of Jubal Board (deceased) of near Custer, died July 10, after an illness of nine days. Age eighty-five years, two months and seven days. Mrs. Board was Miss Mildred Bramlett, was born May 3, 1829. Her father and mother were born in Virginia and married there, coming to Kentucky as bride and groom, settling near Custer. There was a large family of children, Mrs. Board being the youngest and the last survivor. She was married to Jubal Board Dec. 10, 1846. Mr. Board was also born in Virginia, having come West when a young man. To this union was born twelve children, six of whom yet survive. Mr. and Mrs. Board were one of the few couples who celebrated their "Golden Wedding" anniversary about three years before his death. Mrs. Board was a devout Christian to the day of her death, having joined the M. E. Church South when a girl. She expressed a willingness to go any time the Lord saw fit to take her, and told friends at Lodi, where she had spent the winter, before going to the old home for a visit, she was "going home to die." She lived only two weeks after returning to the old home. We realize that great is the loss in such a one, but our loss is her gain, and realize the reality of the words, "Into each life some rain must fall; Some days must be dark and dreary." The surviving children are J. C. Board and Mrs. J. W. Parr, of Breckinridge county; Ollie Board, of Meade county; Z. T. and Otho Board, of Hardin county; Mrs. Arthur Goodman, of Durant, Okla.; besides a number of grandchildren and great-grandchildren and a host of friends and relatives.

Miscellaneous Shower.

Miss Burn and Miss Edith Burn have issued invitations for a miscellaneous shower to be given in honor of Miss Eva Bell Plank at their home Thursday afternoon, July 16, from 3:30 to 5:30.

Back In Their New Church Home

After being out of their church home for twelve Sundays, the Baptist congregation will resume their services there next Sunday. The public is invited to come and worship with them and see the splendid results produced under the supervision of the committee on "Repairs and Improvements." The interior of the building presents an artistic appearance. Sunday school at 9:30. The Superintendent says he will be so glad to get back "home" that he may shout next Sunday morning. B. Y. P. U. at 6:45, the program to be rendered by group No. 1, Wilbur Chapin leader. Bro. Melvin Wood will have charge of the morning preaching service and Bro. R. L. Oelze of the evening service and Bro. W. V. Perkins will lead the prayer meeting next week. The pastor hopes to be back from the meeting with the English church in time to fill the pulpit on the fourth Sunday.

At Atlantic City.

Commonwealth's Attorney Henry DeHaven Moorman is enjoying a vacation of several weeks in the East. In company with Preston Green, of Falls-Rough, he is at Atlantic City and Washington.—Etown News.

GAME WARDEN MARION WEATHERHOLT

And Deputies, of This City, Caught Seven Men Seining Clover Creek—All Appear in Court Monday.

M. Weatherholt, Game Warden in this district, made a raid on a lot of fellows who were out Saturday night having a fine time seining Clover Creek, near the mouth of Tar Fork Creek. Mr. Weatherholt got wind of the party and their whereabouts, and he at once proceeded to take the violators of the Fish and Game law in. He and his deputies, Jim Bishop, Ed Morris and Charlie Clark, proceeded up the creek about 11 o'clock Saturday night and had no trouble in finding their men. They surrounded the whole party and commanded them to come ashore with their sein, which was destroyed, and surrendered.

It was quite a surprise to them and they made no effort to escape. The party was made up as follows: Everett Frank, Eli Jackson, I. V. Jackson, S. R. Keenan, Charlie Board (colored), Joe Burdett and Luther Pate. Mr. Weatherholt released them on parole for their appearance in court Monday. The whole party appeared for trial. Joe Burdett pled guilty and the remainder will have a hearing before Judge Dowell at Hardinsburg.

Mr. Weatherholt said the creek banks were lined with small fish thrown out of the sein and left to die on the banks.

Outing At Tar Springs.

Mayor Hamman and Mrs. Hamman gave a delightful outing at Tar Springs Thursday. Those who went were: The Rev. Mr. Cottrell and Mrs. Cottrell, Mrs. Larkin Gibson, Mrs. J. M. Fitch, Mrs. Emery, Misses Louise McCracken, May D. Hill, Ressie Hendrick, Mary Christena Hamman, Charlie Lee Hamman, Dorothy Cottrell and Virginia Cottrell.

Hawkins-Bruington.

Mr. Walter Hawkins of this city and Miss Mary Bruington near McQuady went to Cannelton, where they secured license and were married Wednesday. Several from here accompanied them to Cannelton. They will make their home in Evansville, where he has a position. Mr. and Mrs. Hawkins have a number of friends who wish them a long and happy married life.

CAPTAIN J. W. KAY.

Died In Evansville July 9---At The Age Of 71 Years---Been On River For 57 Years.

Captain J. O. Kay died at his home in Evansville, Thursday, July 9, at the age of seventy-one years, ten months and eleven days. The funeral was held Friday afternoon from the home of his sister Mrs. Geer, of this city, and the remains were laid to rest in the Cloverport Cemetery at his request. Captain Kay was born in Boone Co., August 1842 and in 1872 he was married to Miss Elizabeth Catharine Sears. He has been on the river since he was 14 years old, and a captain for many years, he was a man of a quiet and unpretentious nature, a devoted husband and a loving father. Mr. Kay was a man of good moral habits and absolutely trustworthy as a steam boat captain. When informed by his son that the end was drawing near, he expressed himself as being prepared to go and requested that his body be brought to Cloverport and laid to rest near the grave of his mother. He is survived by three children, Mrs. Henry Lovejoy, Edward Kay, and Mrs. Edward Britz, and also five grandchildren.

Card Of Thanks.

We desire to thank our many friends and neighbors for their kindness and sympathy during the illness and death of our beloved mother, Mrs. Mildred Board.—Her children

BECKHAM OF KENTUCKY

By C. P. CONNOLLY

The following article by C. P. Connolly appeared in last week's issue of Harper's Weekly, a national publication, edited by Norman Hapgood, which has been supporting the administration and currency and trust program of President Woodrow Wilson. It will be of interest to the friends of former Gov. Beckham:

The candidate most likely to succeed the late Senator Bradley as the choice of the Democrats at the primaries to be held August 1st, is J. C. W. Beckham. Beckham was the choice of the Democratic party six years ago, when a Democratic Legislature elected the late William O'Connell Bradley, a Republican. There was a majority of eight Democrats in the Legislature, but the Whisky Ring controlled enough of these to defeat Beckham, and Bradley was elected.

Kentucky is replete with romance and tragedy, political and other. If there is anything native about literature, it may account for the professional success of James Lane Allen and John Fox, Jr., who have both largely drawn on Kentucky for their material.

In business adventure there was James B. Haggin, the mining magnate, who, peevish because of his failure of election to some petty office when a young man, emigrated to California, became fabulously rich, and returning in his old age to his old home at Lexington, established a great stock farm which is one of the show places of Kentucky. At Frankfort, thirty miles from Lexington, Henry Clay appeared as the attorney for Aaron Burr in his first trial for treason, much to Clay's subsequent chagrin. Here, too, at Lebanon, lived Proctor Knott, one time Governor of Kentucky, who delivered in Congress his famous parody on Duluth. Mountaineers and valley-men have had their feuds and wars, but at the bottom there was usually some elemental instinct of justice. At Frankfort, the Capital, in 1900, William Goebel was shot from ambush as he was about to be declared the duly elected Governor of the State. Out of this last drama issued the career of J. C. W. Beckham, a mere stripling at the time just past the age of eligibility for the Governorship.

The assassination of Goebel was the climax of a great political contest. Not in modern American history anywhere was there a more heroic or tragic struggle. That it left its sting is evidenced by the fact that it is difficult to wean a Kentuckian from his disrelish of the subject.

Everyone will remember how Goebel fought so valiantly against the politically entrenched Louisville & Nashville railroad—of how he was sworn in as Governor on his death bed, and died with words of pardon for his enemies on his lips.

Goebel, who was the pioneer progressive of the South—he was the pioneer of railroad rate regulation in the country—was the most maligned and misunderstood character in American history. He fought his way bitterly through prejudices strong enough to deter most men, and waged war against

Fatal Accident.

While Wm. T. McCoy, of this city, was attempting to drive his Overland across the electric railway tracks at Alvarado Court about 7 o'clock last Thursday evening, he was struck by a car in charge of Motorman Fleming and Conductor McCloud, running north. He was promptly picked up by those present, placed in an auto and conveyed to McNabb Hospital, but died just as the auto reached the hospital entrance.

When the big auto was struck, and which evidently "died" as it reached the crossing, it was shoved bodily on the tracks one hundred feet a seething mass of flames. Not a vestige of the automobile escaped except the iron holdings and the right rear wheel.

The funeral services were held in San Diego at 2:15 Saturday afternoon and were attended by a large number of our citizens. Revs. Rice and Toomay conducted the services. Special music was rendered by members of our church choirs and there were many beautiful flowers.

William Thomas McCoy was born in Irvington, Ky., on November 15, 1868; was married November 7, 1894, to Miss Mary Norton at Garfield, Ky. To this union was born three children, Lela, Lottie and Georgia. He is survived by two brothers and one sister, G. T. McCoy, of Louisville, Ky.; W. I. McCoy, of Calexico, Cal.; and Mary G. Bell, of Irvington, Ky. Moved to Bonita seven years ago. Fifteen months later the family settled in Chula Vista. In his death his children have lost a good father and companion, his wife a devoted husband and the city of Chula Vista mourns a worthy citizen. The family has the deep sympathy of a wide circle of friends.—Chula Vista Review.

Better Roads In Hancock.

F. W. Friel, County Road Supervisor of Hancock county—was here Monday. He reports the McGavock road from the county line in a very bad condition and needs working badly. Mr. Friel says the roads in his county are now in a better condition than they have been in the history of the county. It is due, he says, to systematic working and doing the work in the early spring and summer. Mr. Friel ought to be neighborly and come over across the line and help our supervisor out of his troubles.

Beckham of Kentucky.

Continued from page 1

the old aristocracy of Kentucky and the Louisville & Nashville railroad ring at the same time.

It was left to Beckham, as the successor of Goebel, to smooth out the wrinkled front of this issue. He followed the even tenor of his way, neither compromising nor bullying, but doing all things with an even tempered justice which won the people of Kentucky, and reconciled the enemies of Goebel.

Beckham comes of gentle stock. His mother has occupied the Executive Mansion at Frankfort both as daughter and mother of a Governor. An uncle, ex-Senator Yulee, of Florida, entered Beckham in the Central University at Richmond, Ky.; but Senator Yulee shortly afterwards dying, young Beckham, then seventeen, was compelled to leave college to look after the farm of his widowed mother. Meanwhile he taught school.

Beckham did not falter in the policies for which Goebel was assassinated. He got through the law advocated by Goebel, allowing the State Railroad Commission to regulate rates. Under his administration Kentucky's new Capitol was built. He showed courage in this. Others had recommended a new Capitol, but no Governor cared to put the power of his administration behind it, because Louisville, on the one side and Lexington, on the other, both coveted the honor of the Capitol.

He collected from the Federal Government an old war debt of \$1,300,000. He secured legislation fixing a maximum price for school books. He established two normal schools, and he lengthened the school term in the country districts from five to six months.

But it was in a bitter struggle for the supremacy of the law that Beckham ran against Judge Ben Lindsey's "Beast." He believes that the law should keep pace with the growth of public sentiment, and that when enacted it should be enforced.

The South, topographically the most beautiful section of the country, has had its hurts and its heart-aches, which it has borne without sentimental appeal, and with heroic soul. Its people are grappling with everything that stands in the present way of its welfare. One of these evils is the liquor traffic, which has been peculiarly wretched and sinister in its effects on the South.

If you travel through certain portions of the South, you will rarely pick up a

local paper which does not descend on some tragedy that can be traced, directly or remotely, to strong drink. So the anti liquor crusade is sweeping over the South. Yet it was not in any spirit of crusading that Beckham locked horns with the liquor interests of Kentucky. It was rather the thing that fell in his way as a public duty.

The Constitution of Kentucky, adopted some twenty five years ago, contained a provision that required the Legislature to enact a law giving each county of the State the right to vote itself "wet" or "dry." This constitutional provision, like the one that prohibits railroad passes, was honored in the breach. Indeed, Kentucky Legislatures have been prone, in matters of reform, to adopt the policy of the Vermont Fathers, who resolved "that the laws of God and Connecticut be adopted until we have time to frame better."

Beckham obeyed the Constitution and recommended the enactment of a law in conformity with it; but the liquor interests succeeded in having exempted the larger cities.

Then there was a Sunday closing law on the statute books, which was openly violated in the cities, notably Louisville. Beckham was appealed to but he had no power to remove derelict city officials, and could make only a moral appeal to the Mayor of Louisville to enforce the law, which was successful.

It so happened that shortly after this the Kentucky Court of Appeals decided that the election of all of Louisville's officials had been procured by fraud. The offices were by the court declared vacant, and the Governor was empowered to fill them by appointment. Beckham went over the heads of the party machine and appointed a Mayor with the understanding that the Sunday closing law would be enforced. It was enforced and is enforced today.

The "rectifiers" of Kentucky make a product that is sold as whisky, but which is made up of various occult ingredients. They were doing an immense business in Kentucky, and paying very little in taxes. Beckham secured a law that taxed these "rectifiers" a cent and a quarter a gallon on their product. Also, he secured the passage of a law prohibiting the shipping of liquor into "dry" territory; but the Supreme Court of the United States held that this was unconstitutional, so far as it affected interstate shipments. The Louisville man, therefore, could take his whisky across the river to Jeffersonville, Indiana, and from there ship

it to any point in Kentucky, wet or dry. The Webb law, later passed by Congress, is intended to remove these illicit accommodations and stop the traffic.

Beckham hardly had time to formulate his policies, after Goebel's death, when he was obliged to stand for another election. The politicians were against him, but the people were with him, and he received the votes of 700 out of the 900 delegates.

It was in the palmy days of Mark Hanna, and that astute leader, under whose auspices Kentucky had gone Republican in 1896, believed Beckham could be beaten. The Republicans, therefore, put up their best man and their stoutest purse, but Beckham won by nearly 4,000 votes. Three years later there was no opposition to his nomination, and he carried the State by 27,000 plurality.

Towards the end of his second term as Governor, Beckham, in 1906, became a candidate for the United States Senate. His candidacy aroused intense feeling in the camp of the liquor interests. In the primary election for the Senatorship, in 1907, with the combined opposition of the party machine and the daily newspapers in Louisville, Lexington, Covington and Newport, the four largest cities in the State, Beckham carried 91 counties out of 119 in the State, with the liquor interests furnishing a plethoric purse toward his defeat. Beaten at the polls, the liquor interests retreated to the Legislature, and four Democratic legislators voted at the beck of the whisky ring for a Republican.

By agreeing to abandon the temperance cause for which he had stood, Beckham could have won; but he refused to trade—once more showing his courage and his devotion to principle.

In my opinion, gained after a journey last summer through Kentucky, that sacrifice of Beckham for a principle will make him the next United States Senator from Kentucky as surely as it defeated him then. If there is anything in political justice, if there is any atonement for political wrongs, if a people are not ungrateful or indifferent Beckham will be rewarded. Not that he looks for reward. "Victory is not always the true test of an honest and righteous cause," he said in a public speech after his defeat in 1908; "success may have its pleasures, but failure may have its honor."

And let me add that, whether you believe in prohibition, or in the enforcement of the law, or whether you side with the liquor interests in Ken-

tucky, the whisky ring of that State has exercised more political power of late years in the State than all other corporations put together; and it is far more violent and autocratic.

If he should go to the Senate, he will add to the dignity and the worth of that body. He is one whom the country at large will welcome to the councils of the nation. No man in Kentucky is hardy enough to question his integrity. The charge has been made that, since his return to the practice of law, his law firm has acted as local attorneys for the Louisville & Nashville railroad. Whoever his client, he is of that type of lawyer whose convictions are not for sale with his services. His popularity is based largely upon his integrity, and he is the most popular man in Kentucky.

Political Prophets.

The wild claims being made by the Stanley leaders throughout the state are more amusing than impressive. If what they declare is true Gov. McCreary and Mr. Beckham might as well pull off the track, and Mr. Stanley could afford to return to his Congressional duties at Washington. However, it is a well known fact that ninety-five out of one hundred unbiased observers of Kentucky politics believe that Mr. Beckham will win the nomination by an almost unprecedented plurality. He is certain to carry nine districts, and it would not be surprising to see ten or all eleven of them in his column.

However, the newspaper dopesters and political seers who so confidently predict Mr. Stanley's nomination have a most unenviable record in the matter of political prophesy. They are the clan who predicted that Addams would defeat McCreary, but the venerable Madison county statesman is in the Executive Chair despite their prophesy. They are the clan who said that the county unit plank would not get into the state platform, but it did as Mr. Beckham and Mr. Watterson can best testify. They are the clan who declared that Schoberth would defeat Terrell for Speaker of the House, but Mr. Terrell wielded the gavel. They are the clan who said the county unit extension bill would not pass, but it is on the statute books today. They are the clan who "knew" that Ollie James would defeat Governor McCreary for Temporary Chairman of the Convention, but Governor McCreary presided just the same. They are the clan who predicted that Huffaker would win over Scott for President protem of the Senate, but Scott got the most votes. If there is needed another proof that Mr. Beckham is a sure winner in the August primary it can be abundantly found in the prophetic records of the men who profess to believe that he will be defeated.—Elizabethtown News.

IDEAL WIFE DESCRIBED BY A HUNDRED YOUNG MEN

Beauty of Character and Domestic Virtues Demanded by All.

The qualities a young woman should possess to be an "ideal wife" have been named by a large number of young men of Pomona, Cal., as the result of the selecting of the "ideal husband" by the young women of the First Baptist church. The pastor, the Rev. W. F. Harper, first preached a sermon on the "ideal husband" from the standpoint of the young woman.

To secure his data he distributed lists of questions to over a hundred Pomona girls, and from these answers a most interesting sermon was delivered.

There came a demand for another sermon in which the young men would have an opportunity to express the qualifications which they considered the "ideal wife" should possess.

Accordingly questions were distributed among more than a hundred young men. Practically all responded.

The young men say that the "ideal young woman" must be healthy and strong, but not masculine. She is tall or medium as to height, erect of carriage and possessing the beauty of character rather than of face.

Brunettes have the preference, though blonds and those of medium complexion are not without admirers.

The athletic young woman is preferred only in so far as her interest in athletics indicates good health and ability to keep a neat, tidy home.

All want to know her disposition in the home and her treatment of her home folks, especially of her helpfulness to her mother and her attitude toward her brother. Chumminess with her father and brother counts strongly in her favor.

The following characteristics are mentioned as indispensable: A sunny, joyful, affectionate disposition; integrity, vivacity, practicability, straightforwardness and honesty; modesty in dress and manners and will power enough to stand by a right decision.

Nearly all insist that she have practical domestic training, while a musical and a business education are declared to be desirable.

Queer Things That Turn Up In the News

Mr. and Mrs. George Banks of Youngstown, O., have the distinction of being great-grandparents in their seventy-ninth year and of having four generations of direct descendants, making five generations of the family.

Woman presided at a divorce hearing Terre Haute, first time in the history of Indiana courts.

Charles Miner of Brattleboro, Vt., owns a horse weighing over 3,000 pounds and said to be the largest horse in the world.

Ordinary scarecrows failing to get results, a Wisconsin farmer rigged up one with a slit skirt. The crows now steer clear of his field.

One of twenty-five octogenarians who planned a banquet in France is Louis Coulon, who has a beard that is said to be the longest in the world. It is nine feet ten inches long.

Losing a spoonful of brains in a gasoline explosion, a Brooklyn (N. Y.) chauffeur sued his employer, setting a value of \$50,000 on the lost gray matter. If his brain is of normal weight it is worth \$20,000,000 at this rate.

Archeological Find.

Some interesting remains of an old Friary have been brought to light during alterations to Cromwell House the site of the birthplace of Oliver Cromwell, at Huntingdon, England. The remains include the base of a wall with parts of two doorways. The foundation of a large chimney stack has been found, and in one hearth ashes still remained. The house is believed to have been founded by the Augustinian Friars shortly before 1285.

A well known English bishop sometime since lost his third wife. A clergyman who had known the first wife returned from Africa and wanted to see the grave. He called at the cathedral and saw the verger.

"Can you tell me where the bishop's wife is buried?"

"Well, sir," replied the verger, "I don't know for certain, but he mostly buries 'em at Brompton."—London Mail.

TRYING TO CREATE DISSATISFACTION.

The News is informed that Mr. John Boyd is endeavoring to dissatisfy Democrats in Grayson, Hart, Breckenridge and Ohio counties by telling them that they have been discriminated against by Representative Ben Johnson in the matter of getting appointments for them in the Internal Revenue service under Collector T. Scott Mayes.

Not one of these counties is in the Fifth Internal Revenue District. Perhaps Mr. Boyd does not know this, but he should acquaint himself with the facts before he makes statements of this nature.

The Democrats of Breckenridge county fully understand that Representative Johnson could not procure a position for any man in the Fifth Internal Revenue District who is a resident of this county. Such reports will do Mr. Johnson no harm, because in this age even the gullible cannot be made to believe that Breckenridge county is in the Fifth Collection District, any more than they could be made to believe that the county is in the Fifth Congressional District. People are entirely too well posted on such matters to believe a story of this nature, even if it does come from a man who aspires to be the Representative in Congress of a great district.

Mr. Stanley's speech in Louisville last week is making votes for Mr. Beckham all over the State. People are getting tired of abuse and villification, especially when uttered about a man of Mr. Beckham's standing and out of the mouth of a man with a nation-wide reputation. Mr. Beckham doesn't deal in that kind of clap-trap about his opponent or any one else. He is too big and broad and well bred to get down to such a low plain.

We are sorry to hear of the death of our old friend and patron, William Hendrick, Sr. For nearly forty years he has been a subscriber to the News, and never a word of criticism came from him whether the policy of the News suited or not. He was always a friend, and his glad hand was never held back from us. Truly a good man has gone from us.

Had a good shower here Monday night; also at Hardinsburg, Garfield and Irvington. We hope it reached the Hon. Chas. Sanford, and that he is not near the jumping-off place. All things come to them who have faith, the Good Book says.

We publish in this issue an article from Harper's Weekly giving a bit of history of Mr. Beckham. It will be worth your while to read it.

Hogs were 15 cents higher on the Louisville market Monday. Tops bringing nine cents. Lambs were in good demand at nine cents.

Victor Pile, Democratic Campaign Secretary, says this county will give Mr. Beckham 800 majority.

Senator Camden seems to be the popular candidate for the short term for U. S. Senator in this county.

Be a fair booster and not a knocker.

Boy Drops Burning Match, Causes Heavy Loss

W. G. Lawson, of Irvington, Ky., Rural Route No. 1, suffered a loss by fire in hay field Tuesday afternoon to the amount of \$200, caused by his son, Lewis, dropping a burning match while raking hay. Had it not been for some tobacco having been planted through the meadow all the hay and his entire wheat crop would have been exposed to the flames.

Rammed by a Shark.

The strangest shark story which ever came to the writer's ears was of a shark that charged a steamer. This was in Queen Charlotte's sound, and an account of the incident appeared in a Vancouver paper. The captain of the steamer, which was a small craft of only fifty tons or so, saw the shark on the surface on the port bow and could not resist the temptation of taking a shot at it with his rifle. He hit his mark, whereupon the monster, said to have been fully twenty feet in length, deliberately charged the steamer. The boat quivered from stern to stern, and the captain said afterward that it was like striking a rock. After this display of temper Master Shark had had enough of it and sank out of sight.—T. C. Bridges in Chambers' Journal.

The Footpath to Peace.

To be glad of life because it gives you the chance to love and to work and to play, to be satisfied with your possessions, but not contented with yourself until you have made the best of them; to despise nothing in the world except falsehood and meanness, to fear nothing except cowardice, to covet nothing that is your neighbor's except his kindness of heart and gentleness of manners and to spend as much time as you can, with body and with spirit, in God's out of doors—these are little guideposts on the footpath to peace.—Henry van Dyke.

Homely and Proud of It.

Frankly, I know I am not a handsome man, and equally frankly, I acknowledge that I don't want to be a handsome man. As a matter of personal confession I may say that I have not a single misgiving about my face, which is one of those "homely"—I use the word in the American sense—straightforward, rugged, hewn out of a rock and then stamped upon by a steam roller sort of countenances which command the admiration of all fortunate enough to have caught sight of it—once. I write "once" because I heard a nervous woman remark as I came out of the stage door of the Gaiety one night that if ever she saw a face like mine again she would never go to the theater—she wouldn't be able to. In raucous tones she said that a second shock like that would be too much for her weak heart and delicate state of health.

But I am not jealous of handsome men—not a bit of it. Beauty forsooth! It should be a drug on the market—Edmund Payne in London Strand Magazine.

A Great Race.

Two globe trotters met in the smoking room of a hotel. They found that they had each spent a week in China, on the strength of which they proceeded to "weigh up" that country to their mutual admiration and satisfaction.

From that the talk drifted to sporting events witnessed in different parts of the world.

"While I was in Australia," said No. 1, "I saw what I imagined to be the closest race in the world. The winning horse only beat the second by a tongue's length."

No. 2 seemed lost in thought. He gazed abstractedly out of the window. At last he spoke:

"I have seen a closer race than that," he murmured. "I was once in Scotland."—London Answers.

MAN COULD FLY A PIANO BOX

Practically Everything Depends on the Engine, Declares Lincoln Beachey.

New York.—Any properly built biplane which has a light, powerful engine is stable when in the air, providing it is intelligently handled. The chief reason I have been able to accomplish feats which other airmen never have attempted is the fact that I have had a good machine and have known how to fly it, Lincoln Beachey writes in Popular Mechanics.

Give me a clearance of 500 feet from the ground, a place to land, and then let things happen. If the aeroplane upsots or slides, or the engine dies, and the airman is not asleep, it may be righted with comparative ease.

The master of a good biplane should feel as completely at home in the air as any bird that ever flew. In my recent flights it has been demonstrated that a man-made machine is capable of things which no bird ever attempted. How many persons ever saw a bird try to loop the loop, do a backward spiral or revolve like a top and sail earthward tail down?

It is true that my latest craft was built for the specific purpose to which it is being put. But for general flying a good biplane of the same fundamental type should be equal in stability. It is only touching the extreme to assert that with an engine of sufficient power an airman could fly a piano box. By that I wish to impress the statement that the airman of today has absolutely everything he needs with which to fight the laws of gravity. Because of this the aeroplane already occupies the place of a necessity, commercial and otherwise, for the present and future day man. It is only a toss ahead to the time when the aerial express will be no more a novelty than overland limited trains are now.

CANINE HAS \$200 FUNERAL

Sixteen-Year-Old Bull Terrier Buried in Cypress Hills Cemetery in New York.

New York.—Wreaths of flowers covered a handsome oak coffin in which "Tuck Lentz Crawford," a sixteen-year-old bull terrier, was buried in Cypress Hills cemetery. Nearly two hundred dollars set aside ten years ago by the will of Harry Lentz, at one time a New York sporting man, was used in defraying the cost of the funeral. The dog had been Mr. Lentz's pet.

The burial was supervised by Mr. Lentz's sister, Mrs. Carolina Crawford, owner of Crawford inn, Paterson. She tried to have the animal interred on her property, but the Paterson health authorities objected. She then purchased a grave in Cypress Hills and took the coffin there in an automobile.

DOVES LIKE NAVY SECRETARY

where they belonged, to the state department windows on the south side, there would have been a real big story. However, the secretary of state was out of town when the pair selected their nest, and Mr. Daniels may have been second choice.

German "Cops" to Unionize.

Berlin.—For some time Berlin policemen have been endeavoring to obtain permission to form a union. When some of them began to make arrangements to follow the example of the firemen (who have a union), Herr von Jagow, the police president of Berlin, issued a prohibition, and as a "disciplinary measure" had the moving spirits transferred to positions away from Berlin. The representatives of the policemen, with their legal advisers, will take the necessary steps to establish a union, despite the latest threats of instant dismissal.

State Buys Roller Skates for Girls.

Trenton, N. J.—Roller skating is to be taken up at the State Home for Girls here, with the idea it will prove beneficial to the inmates. The skates have been sent to Mrs. Elizabeth V. H. RICHARD P. ERNST FOR SENATOR

CANDIDATE SUCCESSFUL LAWYER AND BUSINESS MAN OF HIGH STANDING.

NATIVE OF OLD KENTUCKY

Graduate of "Old Centre" College, Elder in Presbyterian Church, President Y. M. C. A., and Largely Interested in Educational and Industrial Work Throughout the State.

Covington, Ky.—(Special).—Richard P. Ernst, who is a candidate for the Republican nomination for United States Senator, is a native Kentuckian, having been born in Covington in 1858, where he has lived all of his life, and where his parents lived.

He received his primary education in the schools at Covington and afterward graduated from "Old Centre" College at Danville, with the Class of '78, winning the valedictory honors of his class. Later he graduated from the Law School of the University of Cin-

Richard P. Ernst.

cinnati, in a class of which William H. Taft was a member. Shortly after completing his studies he married Miss Susan Brent, granddaughter of Chas. Brent, who was for many years a prominent citizen of Paris, Ky. They have two children, one son and one daughter, now grown.

Mr. Ernst, because of his splendid business ability and attractive personality, early in life became prominently identified with the business interests of Northern Kentucky, and through his Covington and Cincinnati law offices has attained great success in his profession.

Life-Long Republican.

Politically Mr. Ernst has been a life-long Republican. For many years he has devoted both his time and his means to a very liberal degree for the success of his party. He was for many years a member of the State Central Committee, was its chairman when the party achieved its most notable triumphs in the state, has been delegate to several national conventions, and in many other ways has served his party, often at great personal sacrifice. He has been able to maintain terms of friendship with all elements and factions in his party, and if nominated will receive the support of Republicans and independents without regard to any former personal prejudices or factional differences.

Interested in Church and School.

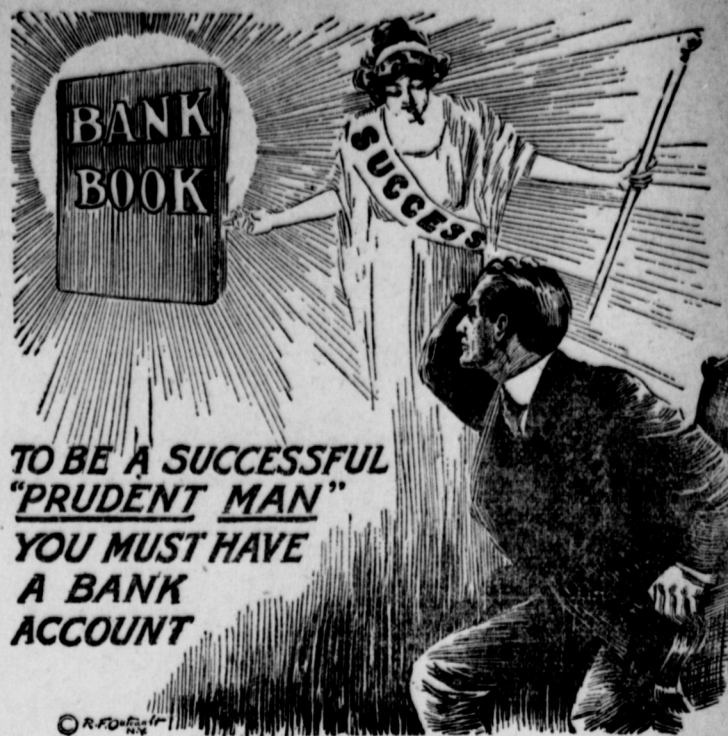

Mr. Ernst is a member of the First Presbyterian Church of Covington, and an elder in that congregation. For many years he has been President of the Covington Young Men's Christian Association, which is one of the most successful and widely popular institutions of its kind in the country, as it appeals to boys of all denominations.

Mr. Ernst retains a wide interest in educational affairs. He is not only a member of the Board of Trustees of his alma mater, "Old Centre," but is also a trustee of the Western College for Women, at Oxford, O., and is a trustee of Lane Seminary, at Cincinnati, one of the oldest schools of theology in the United States. In this connection he has been very liberal in offering prizes to stimulate the student, and is usually responsible for the schooling of at least one young man every year. He also takes an active personal interest in all local charitable institutions.

Strong With Workingmen.

Mr. Ernst has always had many warm friends among the working boys of Covington, and enjoys great popularity with them. He has always aided them in their troubles, and has been a very influential factor in his work of making their relations with their employers pleasant and profitable. Mr. Ernst's candidacy will appeal strongly to the business men of Kentucky. Successful himself and identified with men who have succeeded in commercial and professional life, he offers his services to the state at a time when there is a wide-spread demand for high-class business men to take a part in politics, and to offer to the state and to the country that degree of business skill and experience which is so necessary to success in private life.

Mr. Ernst, if nominated and elected, will take to his Senatorial office not only a mind trained by education and experience, but that wide, practical viewpoint which will enable him to act at all times to the best interest of the farmer, the manufacturer and the consumer. It may be stated in this connection that Mr. Ernst, in his political management, has always treated his Democratic opponents with such a spirit of fairness and courteous consideration that he has the confidence and respect of members of that party to a most unusual degree.

CAMPERS COME BACK REJOICING.

Over Grand Time at Falls of Sinking—Pitched Tent and Spent a Week Fishing, Hunting and Swimming.

Hardinsburg, Ky., July 14. (Special.)

—One of the most enjoyable outings that could be imagined was had at the Falls of Sinking, near Sample, last week. Last Monday morning, July 6th, there was a general hustle and bustle among a number of the younger band, and tents were loaded, chickens were caught and cooped, bed-clothing and provisions boxed, bathing suits shook out and straightened, Rook cards, candies, etc., were carefully packed and all loaded, and when loaded with guns and fishing tackle, the outfit looked like "Sherman's March to the Sea" and that the campers were setting out for months. The word given and all was gone except we ourselves.

But all at once the large buss from the livery stable began hustling over town to get the ones who were to make merry for a week, and when loaded and ready for the journey, the following composed the party: Mrs. G. D. Shellman, the clown and chaperon; Mrs. Lela McCubbins, deaconess and claperon; Misses Ruth Kincheloe, the pet; Elizabeth Palmer, of Louisville, the visitor; Clara Whitworth, the excitable; Mary Franklin Beard, the swimmer, and Annie Lewis Whitworth, the timid; and Messrs. John Gibson, the gentleman; Hobert Shellman, the red and general manager; Ely Duval, the squab and monkey, and Hewitt Gibson, the old rough and ready.

Landing at our destination tents were pitched and things began to move. Cooking of all kinds progressed regularly throughout the week. Bathing pools, fishing ponds and swimming lakes were examined and found to be everything that heart could wish. Boats were secured for rowing up and down the stream.

The daily program: Breakfast 7:30 a. m., after which all would then fish until 10:30 a. m. when lemonade and cake were served and all retired for rest. We had quite a number of visitors, and on Thursday Hook's automobile brought down G. D. Shellman, P. M. Beard, J. Whitworth, Howard Hook, Dr. H. E. Royalty and little Lucy Whitworth, who remained over with little Clara Beard and Ruth McCubbins, who had gone earlier in the week.

This party took dinner and supper with us. Messrs. Moorman Ditto and Francis Dillon drove down Thursday evening and took supper and remained over night. Many more, which for lack of space, we are unable to mention, were with us.

Each evening a stroll over to Sample was enjoyed, where Mr. Laslie, the general merchant, had all kinds of cold drinks, water-melons on ice and ice cream, which was enjoyed by the crowd.

Late Saturday evening the chaperons gave the command for a tearing down and moving out, while the young ladies and young men were calling out with one accord, "remain longer." However, with promises from Mrs. Shellman and Mrs. McCubbins that they would come back next year, the party obeyed and arrived at Hardinsburg at 8:30 p. m. Saturday evening. The entire party of young people say beyond any question of a doubt, Mrs. Shellman and Mrs. McCubbins are the only real chaperons in Breckenridge county. Campers.

Vacation Rush On.

Vacation travel has begun on the Henderson Route and Friday an extra coach was put on all the passenger trains and the happy humanity that was going and coming, was comfortable and well looked after by the L. H. & St. L. men.

Hundreds are now going far and near to the cities and country places for their annual vacation of rest and recreation. Notwithstanding the drouth and the general depression in business, railroad men say that the vacationists are larger in number than last year. There will be a rush of week-enders from now until late September and the stations will be the busiest places along the Henderson Route.

People are going more and have less, they would rather have a look at the world around them than to live in a little world all their own.

MRS. MARY E. DEAN

An Estimable Woman Dies At Glen Dean In Her Eighty Fifth Year.

Mrs. Mary E. Dean, an old and estimable woman and the mother of a large family died last Thursday at her home near Glen Dean. Mrs. Dean had been ill for several weeks and her death was not unexpected. She had reached the venerable age of 84 years and was a woman of marked ability and was widely esteemed by all of her neighbors and friends. She is survived by six children as follows: Judge J. A. Dean, of Owensboro; Godman Dean, of Greenville; Summers Dean, of Russellville; Charles M. Dean, of Glen Dean; Mrs. Margaret Cornwall, of Chicago; and Miss Amanda Dean, of Glen Dean.

The funeral services were held at home conducted by the Rev. E. O. Cottrell, of this city. She was buried in the family burying ground near her home.

Visit Camping Party

Hardinsburg, Ky., July 13. (Special)—The following visited the camping party at Sulphur Springs Sunday and had dinner: Mr. and Mrs. Ed Dillon and baby V. D. Haswell, M. B. Kincheloe, Wm. Evans, White Kincheloe, C. L. Beard, Jr. J. H. Gardner, Jr., and J. G. Haswell. They report a big dinner, it being made up of everything possible that would go in proportion with ten frying chickens that weighed two pounds each. The visitors say that the party is having the time of their lives eating, sleeping hunting, fishing, swimming, reading and having all the fun that a crowd could possibly have. They organized the first day they were in camp, one group cooking only one meal a day, thus making the work of the camp easy on all. They elected officers as follows for the next camp to be held next year at the same time and same place: F. S. Kincheloe, commander in chief; Nancy Kincheloe and Hallie Brown, heads of itchen and dining room; Eliza Taylor and Delia Kincheloe, bedrooms and entertainment committee; Murray Brown, scout; Sam Evans, janitor. They will break camp Tuesday afternoon, returning home Tuesday night.

Death Claims Wm. Hendrick, Sr

Hardinsburg, July 14 (Special)—William Hendrick, Sr., aged 68 years, died at nine o'clock P. M. on the 13th of July, 1914. Mr. Hendrick has been suffering severely from a stomach affection for several weeks past and had been in bad health for some months. He died where he was born and reared, on his farm 3 miles from Hardinsburg. He was one of our most substantial and prominent farmers and it is doubtful if any citizen of the county, in its entire history enjoyed more sincerely the high, unfaltering respect of his fellow man than did Mr. Hendrick. He was an honorable Christian gentleman, charitable to a fault, scrupulously honest in his dealings with all and he was the sum total in all that constituted the highest type of our citizenship. He married Eliza Jolly, daughter of Nelson Jolly, forty six years ago, and was the father of Lucretia Miller, wife of J. W. Miller; Resie Miller, wife of James H. Miller; Isabelle DeHaven, wife of Miller DeHaven; John M. Hendrick, Guide Hendrick, Tice Hendrick and Miss Annie N. Hendrick, all of whom survive him, as does his widow. His domestic life was exemplary; his companionship with his wife and family was unceasing from the beginning and it's doubtful if he ever remained overnight away from his wife. He would not go anywhere without her.

He was buried at three o'clock on the 14th, and the Rev. James Lewis, now of Fordsville, formerly his pastor, officiated. Interment was had at the Miller graveyard near Hardinsburg. A large concourse of neighbors and friends were present at the funeral.

TO FIT MILLIONS FOR THEIR WORK

State Grants Are Urged For
Vocational Education.

\$1,500,000 TO TAKE UP PLAN

Commission on National Aid Asks That
as Starter and Would Increase
Amount to \$7,000,000 a Year—Three
Types of Schools Projected For the
More Common Occupations.

According to the report of the commission on national aid for vocational education, appointed by the president, and of which Senator Hoke Smith was chairman, of more than 25,000,000 workers in agriculture and industry fewer than 1 per cent have had adequate preparation for their jobs. "Millions of persons between the ages of fourteen and eighteen years," the report continues, "are not in school, having left to enter the ranks of the breadwinners. About half of these are children under sixteen years of age, the large majority of whom left school before completing their elementary education and are handicapped by lack of schooling either for successful wage earning or for intelligent citizenship.

"As a solution of the problem confronting the nation, vocational training is needed to conserve and develop our natural resources, to prevent waste of human labor, to provide a substitute for the old apprenticeship, to increase wage earning power and to meet the increasing demand for trained workers.

Initial Appropriation of \$1,500,000.

"To stimulate the movement for vocational education the commission recommends the distribution of national grants among the states. In its bill to congress it provides for an appropriation of \$1,500,000 for 1915 to be increased yearly thereafter, according to a graduated scale, until the maximum annual appropriation of \$7,000,000 is reached in 1921. This money is to be used under certain conditions for the training of teachers for vocational subjects and for the paying of salaries of vocational teachers.

"The kind of vocational education which is most needed at the present is that which is designed to prepare workers for the more common occupations in which the great mass of our people find useful employment," continues the report. "Vocational training to be most effective and thoroughgoing should be restricted to persons over fourteen years of age who have laid the foundations of a general education in the elementary schools."

For Three Types of Schools.

The commission has proposed that the grants shall be used in three different types of schools—all day, part time and evening schools. Of these schools the report says: "The results which may be expected from the all day industrial schools are the retention in school longer of boys and girls who leave because of their lack of interest, a wiser choice of vocation because of an opportunity to test ability and to discover likes and dislikes, greater certainty of success in a vocation because of the development of a more definite purpose in life and of an increased industrial intelligence, of an insight into fundamental principles of trade, the acquisition of sufficient skill to shorten the period of apprenticeship and a greater readiness to profit by part time or evening instruction for the sake of future advancement or promotion.

"Part time schools may provide, among other things, for trade extension for the next step within a given industry, trade preparation courses for boys and girls employed in occupation where advancement is dependent upon increased specific and general intelligence, and home economic courses for girls who are employed in any line of industry."

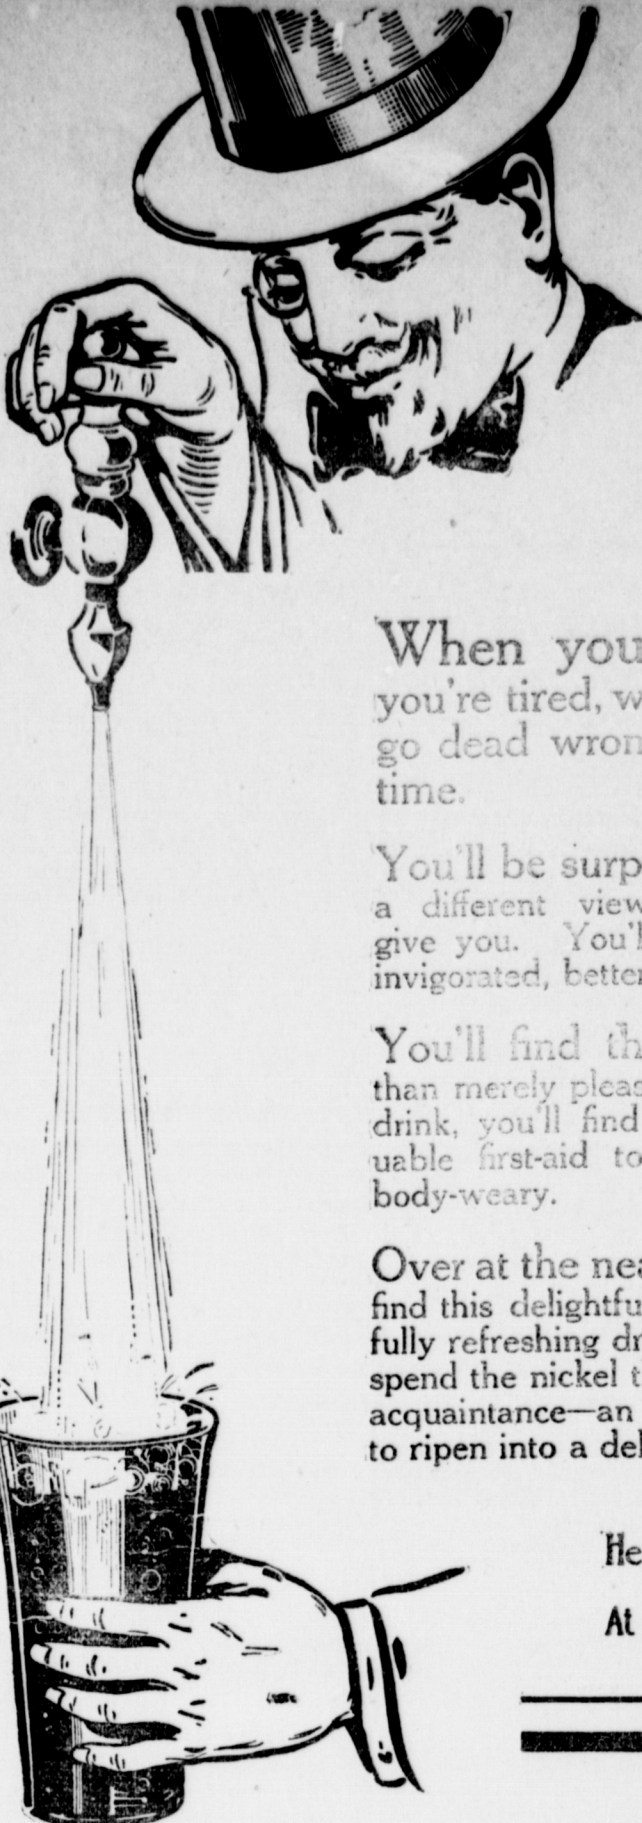

HAS A DEBT PAYING DAY.

Oklahoma Town Starts Custom of Annually Repaying Obligations.

Carmen, Okla., has inaugurated a novel institution to be known as "take it back day" and to be observed each year on a date in June to be set by the mayor. Everybody in the town who has borrowed money in the course of the year and has failed to repay it or give something in kind will be reminded annually of his or her remissness and will be expected to redeem the debt.

The first "take it back day" was a big success. The best of neighborhood good feeling was displayed. The postmaster said that even the parcel post was invoked to return things to people who had moved from the town. Many persons who had grudges against others also took advantage of the good feeling inspired by the day to "make up," and several neighborhood feuds were ended.

HOLDS THE SEWING UTILS

Grasswork Basket Easily Fashioned
for Both Convenience and Ornament to Living Room.

Sweetgrass baskets of shallow, circular shape may be charmingly fitted up for holding sewing utensils with the aid of a little ingenuity and a few pieces of celluloid. The basket need not be lined, but it should be faced to the depth of two inches from the top edge with pale blue or whatever may be the chosen shade of ribbon, and from this band may be hung the various conveniences for sewing. One of these conveniences is the tiny needle book of ribbon-covered cashmere, another is the emery of cashmere worked with colored floss, and a third is the pincushion fitted into a celluloid basket that swings by its own slender handle. The stock of embroidery needles may be kept in a

tiny tube of celluloid that can be fitted into a holder of narrow ribbon stitched to the facing strip, while the bodkins and stilettes can go into almost flat loops of the same sort.

The sweetgrass basket of the shallow, circular type sets evenly upon any planed surface. But if two wide bands of ribbon starting from opposite sides of the edge are drawn together—under a huge bow—are added, it may be safely suspended from a wall hook and, thus equipped, makes a very ornamental living room convenience.

Mrs. W. N. Bartlett, 620 Triplett St.,
Owensboro, Ky., says: "For a long
time I had nearly every symptom of kidney disease. My back ached terribly and at night I didn't sleep well. During the day I was nervous and in bed all the time. My feet became swollen and I knew that I required a good remedy to cure me. I had often heard Doan's Kidney Pills highly recommended, so I got a supply and began taking them as directed. Doan's Kidney Pills cured me and they are the only remedy I will ever use for kidney trouble. I can highly recommend them, as they lived up to the claims made for them."

WHAT A CONGRESSMAN WILL DO FOR HOMELAND PIE.

Representatives Daniel R. Anthony of Kansas, Evans of Montana, Helgeson of North Dakota, Keating of Colorado, McVulture of Oklahoma, Baker of California and Haebeugh of Illinois recently were invited to talk to a woman's suffrage picnic in Washington. They evinced no particular enthusiasm until a very pretty suffragist announced:

"We're going to feed you home-made cake—and—homemade sandwiches—and—homemade pie—and—fried chicken!"

Whereupon the congressmen grinned broadly, said they would be there with bells on and would also speak—yes, verily, gladly!

STATE RETARDED IN SCHOOL GROWTH

PAYING DEBTS BY APPOINTMENT
OF TEACHERS — TRUSTEES
ELECTED BY ONE VOTE.

SELLING SCHOOLS FOR CASH

Four Thousand Trustees Will Be Elected
Throughout State in August—See
To It That the Best Men Only Are
Named at This Election—All Parents
Should Vote.

Louisville, Ky. — (Special.) — Was there ever a "devil's broth" brewed that equaled what has been going on in our rural schools?

We are paying by taxation over three million dollars annually out of the State Treasury, to say nothing of local taxation and other contributions for the support of our public schools.

It is a question if one-third of it is not wasted by incompetence and indifference not to mention possible graft in one form or another.

As a sample of what has been going on, I very recently had occasion to look over a batch of letters from a number of County Superintendents of our State. I ran across one reporting some trouble in the sale of schools. Asking what on earth that meant, the reply was, "Why haven't you heard of that before?" I said "in God's name, no; what does it mean?" "Why," they said, "that has been complained of for years, but it is not as bad now as it has been."

It seems the trustees would sell the privilege to teach his school to the teacher who would agree to give him the largest part of her salary. It is reported that in some cases trading in schools has been quite a profitable side issue. Was there ever anything more infamous? A man that would do it ought to be sent to the penitentiary for a thousand years. Another case of a combine, three teachers were applicants for a school, the final agreement was that each should teach a third of the time, thus giving the poor children the benefit of a rapid change in teachers.

Another case (and this was not in the mountains, either), a vacancy occurred, two applicants presented themselves, one was a graduate of a Normal school with a full certificate, the other a young girl scarcely through the High School; the school was given to the young girl. Some of the few curious enough to investigate found the girl's father owed the superintendent a debt and had promised payment out of the girl's salary.

In one of our richest counties, where a bunch of trustees were gathered with some patrons to talk over conditions, one of the trustees arose and pleaded for help, saying that he was elected by one vote and he had to go out and hunt up that man to vote for him in order to get there at all.

When it is realized that these district trustees, of whom there are about 8,000 in the State, constitute the most vital part of our educational machine, is it any wonder that the State is retarded in her growth and advancement.

I would not be understood as condemning all trustees; we have many good ones, who are honestly trying to do their full duty, but unfortunately these kind are not in the majority.

Now whose fault is this? It belongs more or less to all of us, but primarily to the parents of the children who are too indolent or indifferent to even go to the polls and vote for the right kind of a trustee, and take enough active interest in the conduct of their schools to see that they are conducted on an efficient basis.

When this office is filled with one of the best men in each district, then we shall see such a development of our schools and State as has not been dreamed of. There will be about 4,000 trustees elected in the first days of August next. Now will the people see that good men are put in or will they continue to neglect it and let it be filled with ne'er do wells, the incompetent or those who have "axes to grind?"

The wonder is not that we have droughts, and other calamities but that the God of Heaven does not smite us from the face of the earth.

—John B. McFerran, Chairman Educational Committee, Louisville Commercial Club.

She Would Get Even.
Tired out with an afternoon's shopping, the mother sat back in her easy chair to recite in detail the afternoon's experiences to a sympathetic home circle.

"And to cap it all I met that horrid Annie Green, and she was very impudent to me as usual," she wailed.
"The mean thing," sympathetically snapped out six-year-old Ella. "Why didn't you impudent her right back?"—New York Sun.

Glad Vacation Days

[Forget your dignity, throw away your steadiness and be a kid again on your vacation.—Physical Director of New York Y. M. C. A.]
If a gentleman with whiskers and a scant supply of hair
Sets a few inverted thumb tacks very deftly on your chair
And you occupy it later do not howl with wrath and pain.
He's enjoying his vacation, and he's just a kid again.

If a portly, pompous person with a stern, impressive frown
Grabs your portion of plum pudding from your plate and bolts it down
Or upsets the gravy on you don't be petulant or sore.
He's enjoying his vacation, and he's just a kid once more.

If an elderly director of a billion dollar bank
Just as you sit down to dinner gives your chair a sudden yank
Don't get up and knock his block off, and be careful what you say.
He's enjoying his vacation in the good old childhood way.

If you see a crowd of statesmen playing drop the handkerchief,
If you hear a justice walling in an ecstasy of grief,
Do not telephone the sheriff. That's their means of relaxation.
They have all gone back to Boyville for their annual vacation.

PAY-DAY FOR REBELS PIONEERS IN WORK

Methods Used in Paying Off Carranza's Troops.

Ill-Clad Men Wait In Line for Their Miserable Stipend, Which is Soon Spent for Candy, Mescal and Cigarettes.

By JOHN K. WINKLER.
Tampico.—One of the most amusing manifestations of martial law life in Tampico these days is furnished when the rebel soldiers are paid off.

One morning I watched the men of a "crack" company of the Third regiment receiving their daily stipend of one peso. The company consisted of 13 men and two boys. The boys wore shoes. So did some of the men. Two of the men were attired in a costume that might have passed for a uniform. Each sported a pair of khaki trousers and a shirt. The undershirts of the other men were a symphony in colors. Vivid carmine vied with imperial Roman purple.

The company was drawn up on the veranda of the customs house. The soldiers carried their rifles, some on their right shoulders, some on their left. One of the boys, who could not have passed the age of ten, had sawed off half the barrel of his rifle. It was still too heavy and he held it between his legs while he rolled a cigarette.

The company paymaster was the second lieutenant. He squatted on the steps in front of his men and thumbed a tiny pile of new one-peso constitutionalist notes. He called the roll from a pencilled list and—shades of West Point!—he maintained his sprawling position while he did.

While their names were being read the demon warriors stood in a line about as straight as a "punkin" vine. Some scratched furtively at their tattered trouser legs. Others stolidly smoked their cigarettes and flat-footedly clumped forward when their names were called. They examined the money carefully on both sides, rubbed their hands over its surface, rolled it up in a tiny ball and tightly clinched their fists over it.

Impatiently they maintained the line formation until all had been paid. Then, the two boys leading, the entire company scurried over to the market place. The soldier kids invested their money in large sticky gobs of fly-laden sweets, while the men bought mescal and cigarettes.

Within half an hour most of the redoubtable warriors were stretched along the railroad track. In the shade of a line of freight cars, in sweet and blissful slumber—slumber that would be voluntarily disturbed only when another pay morning rolled around.

These pay mornings, by the way, are by no means daily affairs. Very often the soldiers must rest content to receive nothing for a fortnight. Their stipend depends upon a variety of things—chief of which is the amount of constitutional money engraved and shipped from the interior. Also, very often the officers and men must wait until sufficient "voluntary" contributions and "loans" have been made to the cause by the citizens of Tampico and foreign business men. Strange to say, the "voluntary" contributions come almost invariably from townfolk, who are known in the past to have been friendly with the federals.

SURGEON'S KNIVES SCARE BOY

Youthful Culprit Prefers Prison to Being Operated Upon By Physician.

Norristown, Pa.—When John Moskovitz, a Pottstown boy, was arraigned before Judge William F. Solly for larceny physicians impressed upon the jurist the idea that the boy was not responsible for his criminal tendency, but that it was due to a pressure on the brain caused by a blow from a club his father had thrown into a chestnut tree. The court agreed to suspend sentence and try the experiment of an operation. So the boy was sent to the State Institution for Feeble-Minded Children at Spring City, with the idea of having an operation performed.

But the lad had no sooner been safely stowed in the asylum than he took leave. He was captured in Chester county and was brought to the jail here and locked up. It is understood that Judge Solly will now sentence him to imprisonment instead of the scalpel.

Korea Built Steel-Clad Warship Over 300 Years Ago.

George Kennan Tells How Korean Constructed Battleships 250 Years Before the Monitor and Merrimac Were Created.

Washington.—George Kennan, explorer and lecturer, recently communicated to the National Geographic society, at Washington, the information that Korea built steel-clad battleships 250 years before the Monitor and Merrimac were created. The Hermit kingdom was using movable type and astronomical instruments from the twelfth to the fifteenth centuries and employing explosive bombs long before they were known in Europe. He points out that the famous Japanese Satsuma pottery was made originally by Korean workmen, who were imported into the mikado's kingdom.

These facts are cited by Mr. Kennan to show the terrific downfall experienced by Korea. He traces her course from her pinnacle of civilization to the depths of degeneracy and expresses great hopes for her future, under the guidance of Japan.

"While Korea was sinking, Japan was rising, until the island kingdom, all by her own efforts, became such a world power as to defeat a great European nation," he says. "The Koreans were a mainland people. They had taught the mediaeval Japs all the civilization they had. But, by reason of their geographical location, they were invaded by vastly inferior peoples, the Mongols and the Manchus. Korea was influenced to establish demonology as her religion, her blood was weakened by being crossed with that of people vastly beneath her and her spirit was broken by the indignities heaped upon her by the more powerful invaders. She was under the influence of China, which adopted the semi-sacred books of Confucius as its national system of education 2,000 years ago. The knowledge of his works and the ability to recite long chapters of his writings were made the chief requirement of the aspirant for honors. As a result, the study of the sciences, mathematics and the phenomena of nature was dropped; the memory was over-cultivated and the reasoning power stultified. The habits of the Koreans became uncleanly; they grew indifferent to dirt and smells.

"Japan, on the other hand, was never invaded in her history; her blood was never intermingled and her stock was allowed to remain pure. Her national character was developed without influence. The Shinto religion of the empire has as its cardinal principles purity of blood, spirit and environment. Japan was not exposed to the scourges and plagues that Korea's dirt and filth brought upon her. The feudal system sprang up in Japan, causing authority to be respected and discipline to be developed.

"In 1910, Japan annexed Korea. Prior to that time, as many deaths as 900 a day had occurred in the city of Seoul alone; shortly afterwards not as many people died from the plague in the whole kingdom in one year. Japan forcibly vaccinated 5,400,000 people in one year. One hundred and sixty-eight courts were established, giving authority to 13,000 gendarmes. Hundreds of miles of roads are being built. Afforestation on an extensive scale is being carried on. To encourage the silk worm industry 13,000,000 mulberry tree seedlings were set out in one year. State and private banks were established. The postal savings system was installed and one in every six families has a savings account. The people, at first suspicious, have learned that they will get their money back whenever they ask for it. In the first year after the Japanese occupancy, the rice crop was doubled, and the wheat and barley crops grew from 14,000,000 to 36,000,000 bushels. The Japanese have built a model village in every province and are encouraging people to build similar villages throughout the kingdom."

Mr. Kennan points out that Korea has the same geographical advantages as a great portion of the eastern part of the United States. "She is just as well fitted to be the home of healthy, prosperous and happy people," he says. "She is located similarly to the territory bordering on the Atlantic coast from Portland, Me., to Charleston, S. C., and extending inward to Albany, N. Y., Harrisburg, Pa., Lynchburg, Va., and Columbia, S. C."

IN MEMORIAM.

Allie D. Beard.

One day, recently, a father and son were moving a piano from one place on the platform to another. The boy, tall almost as the father, but without his strength, found his end too heavy to lift, and looked up at his father with an appealing smile, deprecating his failure. The father said, "Too heavy for you son," and coming to his aid, the piano was soon in place. Today the Heavenly Father says: "Is the burden too heavy for you, my child? Let me help bear it. "We cannot say, and we will not say, Allie D. is dead; He is just away. With a cheery smile and a wave of the hand, He has wandered into an unknown land, And left us dreaming how very fair It needs must be since he lingers there. Think of him still as the same, I say; He is not dead, he is just away."

For him death had no terrors, and "was only life stopping in its singing to take breath for endless song."

A lover of music, and one who promised to become proficient in that art. How the melodies of Heaven must enchant him! Can you not fancy him already joining in them? Not all of us finish the work given us to do in life so soon as did Allie D. Not all of us are so soon promoted to Heavenly glories. Shall we envy him? Shall we not rather follow after—follow on to hear the wondrous melodies; to behold Him whom Allie D. trusted for salvation; whom he loved and served and worshipped? Aye, that is the crowning glory of Heaven to see Jesus and be like him.

Let us, Allie D.'s schoolmates, classmates, his dear ones, yea, all of us, resolve to take for our Savior from sin Him who saves to the uttermost all who come unto God by him.

And let us rejoice that when the Good Shepherd came to our flock and bore away to the Sheepfold on High one of the lambs, that He took one who loved Him and who went with Him unafraid.

Praise God for the Mansion prepared! Praise Him that we may go to him, and with our boy see Him as He is, and become more and more like Him throughout eternity.

May not this be placed on our records, and a copy be given our Superintendent and his family.
